

# ALL ABOUT BIRDS!

Today we will look at birds. The return of our feathered friends has begun. Let's learn about them together! Birds are an important part of our northern ecosystem and can provide us with fun activities such as identifying different species through sight and sound. We have collected six bird-related resources and activities. These resources are suitable for both for kids and adults.

## [The Rusty Black Bird: Ages 10-15](#)

This resource provides interactive, fun and fast ways to learn about the Rusty Black Bird, and the factors affecting it in the NWT. The activities and information presented can easily be adapted to multiple grade levels..

## [The Gumbird Quest 2020: All Ages!](#)

Support inclusion NWT by joining the quest! Whether you are an Early Bird or a Night Owl, play along as we seek out our local feathered friends, both real and imaginary. Be Eagle-eyed when you look out your window or are getting fresh air during your quests. Don't forget to physically distance

## [Bird Friendly Colouring & pictures of NWT Birds: Ages 2-10](#)

Think about the birds of the NWT! Here is a colouring page of a bird friendly garden and some photos of the birds of Hay River.

## [Mesmerizing Migration All Ages](#)

This map shows real time bird migrations throughout the year. Data that you can collect using citizen science apps can be used to track the migration of birds to create maps like this.

## [Birding apps: All Ages!](#)

Looking for help identifying a bird that you're not quite sure about? Check out one of these great bird ID apps. We suggest: the [Audubon Bird Guide](#) or [ebird](#) or [iNaturalist](#)

## [Where Do Birds Go In Winter? Ages 7+](#)

Watch this short video from PBS that explores where birds go in winter, and how they make the journey.
